rishipraval07 | imrishio07 | rishipraval | Portfolio

EDUCATION

Adani University

Bachelor of Technology in Computer Science (AI-ML)

- CGPA: **8.70/10.0** | Last Semester GPA: **8.95/10.0**

Ahmedabad, Gujarat

Aug 2023 – May 2027

American School of Baroda

Higher Secondary Education

Baroda, Gujarat

Graduated May 2023

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, HTML/CSS

Frameworks/Libraries: React, NumPy, Pandas, Scikit-learn, Matplotlib, Prism.js

Databases: MySQL, DBMS fundamentals

Tools/OS: Git, GitHub, VS Code, Jupyter Notebook, Linux (Fedora, Kali, Arch)

Certifications: Career Essentials in Generative AI (Microsoft & LinkedIn, 2024)

PROJECTS

Recursify – DSA Blog Platform | React, JavaScript, Vite, Prism.js

- Developed a **complete blog platform** designed to explain **LeetCode problems** with clear intuition and pattern-based learning.
- Implemented custom features including **multi-language code blocks**, **bookmarking**, tag-based filtering, and problem-wise progress tracking.
- Optimized frontend performance with Vite and built a clean, responsive UI with **theme toggling**.

Stock Price Prediction System | Python, Scikit-learn, Pandas, NumPy

- Created a **dual-model machine learning system** combining regression for price forecasting and classification for directional movement.
- Engineered **custom technical indicators** including moving averages, momentum metrics, and volatility-based features.
- Improved predictive performance through **cross-validation**, feature tuning, and metric-driven evaluation.

Neural Made Simple – ML Explanation Blog | React, JavaScript, HTML, CSS

- Built an educational website simplifying **neural networks** and ML concepts using clear, intuitive explanations.
- Designed a minimal and distraction-free interface with interactive components for accessibility.

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

LeetCode: Solved **415+ problems** (Easy, Medium, Hard) | Contest Rating: **1444**

Strong Focus Areas: Dynamic Programming, Graph Theory, Greedy Algorithms, Two Pointers, Sliding Window, Bit Manipulation

Problem-Solving Approach: Emphasis on algorithmic intuition, pattern recognition, and optimized space/time complexity.

ADDITIONAL INTERESTS

Finance & Quantitative Analysis: Interest in financial markets, data-driven modeling, and quantitative reasoning

Technical Writing: Author of algorithm explanations and tutorials on the Recursify platform

Creative Writing: Published “Unwritten Pages” on Wattpad exploring connection and introspection

Photography: Minimalistic photography focusing on natural light and simple compositions
